

PHYS-119 : Physics and the Modern World

Physics has given humanity the ability to better understand our world as well as transform our relationship with it. This course investigates the influence of physics principles, discoveries, and applications in human endeavors, such as electricity and nuclear radiation. The role that physics plays in energy use, technology and modern society is explored along with the impacts these discoveries and applications have on global and personal scales. FILA general education: natural and physical sciences.

Credits 4

Prerequisites

MATH-110 or MATH-115 or MATH-118

Term Offered

Fall and Spring

Session Cycle

FS
