

AT-652 : Clin Immersion II

The second clinical education immersion within the profession of athletic training. This clinical immersion allows the opportunity for the athletic training student to apply their professional knowledge, skills, and behaviors under the direct supervision of a clinical preceptor within an orthopedic setting, and gain experience in the daily operating functions of a clinical facility. Students must complete a minimum of 500 hours but no more than 600 hours during this clinical immersion. This clinical immersion may require travel to of campus clinical sites.
