

AT-550 : Clinical Experience I

Clinical education experience within the profession of athletic training. This clinical experience allows the opportunity for the athletic training student to apply their professional knowledge, skills and behaviors under the direct supervision of a clinical preceptor within an athletic setting during a traditional athletic preseason. Students must complete a minimum of 100 hours but no more than 120 hours during this clinical experience. This clinical experience may require travel to off-campus clinical sites.
